Home Bulk LPG – Above Ground Gas Tank - Photographic Survey

When taking photographs of your LPG Tank and Tank Location please ensure that the area around your tank is free of all debris and overgrown vegetation.

Please provide:

✔ 2 to 3 photos of the **tank location taken from each end / side, from around 4m to 5m away** (taken on a mobile phone or similar). Importantly, we must always be able to see what sits within 3m of a gas tank and on all sides.

✔ 2 to 3 photo's of the **surrounding area to show the proximity of the tank to any buildings, fences or trees, the line-of-sight between Tank and Tanker.**

✔ **Tanker parking & access -** Please detail if there are any narrow roads, restricted access.

✔ A photograph of the tank **'data plate'** located on the dome end of the tank. Please also show the tank gauge reading is visible.

Should you have any questions in relation to the location or suitability of your Home Bulk Tank LPG installation please do call or email us on **0800 043 6100** or **team@lpg-save.co.uk**
